

ENVIRONMENTAL POLICY

In pursuit of its business aims to supply high quality services, Tandem Creative, recognise that it has an effect on the local, regional and global environment. As a consequence of this, the company is committed to continuous improvements in environmental performance, pollution prevention and resource management.

We will at all times meet all Environmental regulations, laws and codes of practice and where no regulations exist we will set our own standards of practice.

We will use environmentally safe and sustainable energy sources to meet our needs. We will monitor the use of our energy resources and wherever possible reduce our usage during the day-to-day running of the business.

The Company considers the environmental impact of all products used during the day to day running of the company. Wherever possible the company will seek to lower its environmental impact through addressing the procurement of all these products and through efficient use, conserve these resources.

The company recognises that a primary part of its Environmental responsibilities is sustainable waste management and as such, its responsibilities to recycle materials wherever possible. We will minimize waste, especially hazardous waste and will dispose of such waste via safe and responsible methods.

We will work with our suppliers to ensure that they recognise and reduce the environmental impact of their products and transportation.

Tandem Creative will implement these policies through guidelines and training.

The company will set environmental targets and goals to improve our environmental performance.

We will conduct self-evaluation by conducting regular audits of our performance in implementing these principles and compliance with all applicable laws and regulations
